

INTERNSHIP IN NETWORK ADMINISTRATION for IT MAJORS

DAAD New York office is offering high-level internships in network administration. We are seeking **information technologies majors or graduate students** who are nearing the end of their studies. The internship will take place in New York City in a Windows environment of under 50 users. The length of the internship is one semester (6 months).

This is an excellent opportunity for an IT student to gain international work and hands-on network administration experience.

Requirements:

- Knowledge of network administration functions, including servers and mailservers
- Experience with security products, data storage and backup, VPN
- Familiarity with various Microsoft products, including operating systems (Win XP, Win 7, Win Server)
- Good aptitude with user applications, especially MS Office Suites (2003, 2007, 2010), Adobe
- Some background in working with hardware and peripherals is helpful
- Capable of working independently
- Must speak English and German

We offer:

- A supportive work environment in our office located in the German Consulate in New York
- A small living allowance of USD 750/month.
- Help with applying for necessary J-1 visa and finding housing in New York

Please send your CV and cover letter to Ms. Solveig Berkman berkman@daad.org.
Minimum time: 6 month. Maximum time: 12 month.

We accept applications on a rolling basis. You may also contact us if you have any questions regarding the internship.

The DAAD (Deutscher Akademischer Austauschdienst) is the German federal agency for the support of international academic cooperation. The New York office was founded in 1971 to support academic exchange between the United States, Canada and Germany, and is one of 14 international DAAD branch offices. It provides information and assistance to education professionals and students in the United States, Canada and Germany; administers fellowships and programs for students and scholars; and promotes Germany's academic, scientific, and cultural achievements throughout North America.
