

Education

Drexel University
Bachelor of Science in Information Technology
Minor in Finance

Philadelphia, PA
Anticipated Graduation- June 2017
Cumulative GPA: 3.05

Engineering Design Project

Drexel University
Project Manager and Programmer

Philadelphia, PA
April to June 2013

- Created an iOS app in a group of three using Xcode
- Designed an interface that allowed students to submit concerns they had with their college/university
- Established a way for users to rank which concerns they agreed/disagreed with

Work Experience

Towers Watson
Information Security Analyst

Philadelphia, PA
April 2014 to October 2014

- Proactively monitored the Data Loss Prevention system for potential security incidents and served as one of the primary incident responders in order to prevent sensitive information from leaving the company
- Maintained and improved the third party vendor risk management program for all incoming and existing vendors
- Conducted security assessments of third parties to evaluate whether full security reviews were required and aided senior security professionals in creating reviews
- Outlined layouts of card readers and IP cameras on 30+ floor plans for future projects using C-Cure 9000

Bain Capital
IT Risk and Security Intern

Boston, MA
June 2013 to February 2014

- Observed security logs generated by 1,000+ computers to identify abnormalities and possible malware
- Assisted a team of three to monitor existing systems and plan the implementation of new software
- Generated a report that outlined possible security risks in foreign countries and recommended course of action to take
